Keywords: Service System, Buy Sell House

Abstract:

Computer is a media that is very liked by everyone, by using computer media we can communicate with the entire world using the Internet. To get information we want we can use the Internet to find sites that we know.

Usually someone who wants to sell or buy a home, to pair advertising through print media such as newspapers and magazines. This is a barrier, placed print ads that can only be read by people who are in a particular area or region. For the PT. Jasa Abadi offering home buying and selling services via the Internet to market ads to get read and seen from different directions.

So someone who wants to sell his house quickly can click on a site that has been supplied by PT. Jasa Abadi, as well as for buyers who want to get information that coveted house, because the PT. Eternal service will help you by providing easy-to sells and ease of buying a home.
